# HISTORY

**T**he first people to live in the area were the Native American tribe known as the Bay Miwoks or the Northern Valley Yokuts. They were peaceful people who enjoyed singing and dancing, and lived mostly on acorn gruel, fish, game, berries and seeds. They lived in dome shaped houses thatched with tulle.

**T**he first European explorer of Contra Costa County was Pedro Fages in 1772. But it wasn't until 65 years later that Europeans settled here. In the late 1830's, Dr. John Marsh established himself as the first American citizen and physician in the area. He soon purchased a 12 X 10 mile grant for \$500 and used the land primarily for cattle. In 1837, Dr. Marsh built a large stone manor house which still stands today, 2.5 miles south of Brentwood on Marsh Creek

**B**y 1890, Brentwood became the largest shipping point for wheat and barley between New Orleans and San Francisco. It incorporated into a city in 1948, but remains an agricultural town even today. Crops raised here in the past, and still today, include grain, alfalfa, apricots, nectarines, peaches, plums, cherries, figs, pears, walnuts, almonds, pistachios, tomatoes, corn, melons, squash, and lettuce. A \$500,000 irrigation system was installed by Balfour Guthrie Investment Company in 1913, allowing Brentwood to support these thriving orchards of apricots, peaches, and cherries. By the 1920's, Brentwood became well known as one of California's agricultural centers. The City of Brentwood incorporated in 1948 and maintains its advantage as the only incorporated city in East Contra Costa County.

# SIGHTSEEING

## *Los Vaqueros Reservoir*

*If you've been looking for a place to fish, hike, ride your bike or horse, or just enjoy a peaceful natural setting, the Contra Costa Water District's Los Vaqueros Watershed could be just the place.*

*The watershed offers hiking and multi-use trails, picnic facilities, restrooms and five staging areas to park cars. There are 55 miles of trail open.*

*The reservoir is stocked with game fish ranging from rainbow trout to kokanee salmon. We have a weekly fishing report on the web site.*

*Los Vaqueros is a protected watershed environment of nearly 20,000 acres that provides 550,000 people with drinking water. Numerous animal species depend on Los Vaqueros as a safe place to live, and are often spotted by observant visitors. We have on-line a weekly report of animals spotted at LV.*

*Because the reservoir stores drinking water, body contact sports (such as swimming) are not permitted and the only boats allowed on the reservoir are those available for rent at the Marina Center.*

*There are two entrances for vehicles to the watershed.*

*The north, where the dam, Interpretive Center (which is open Friday, Saturday and Sunday from 9 a.m. to 4 p.m.) and most of the multi-use trails for bikes and horses start.*

*In the south, are the Marina Center and boat docks, along with two of the four fishing piers. There are picnic areas at both ends of the lake.*

*You can rent an electric boat at the marina, and hot food, ice cream and snacks are available there as well.*

*For more information, call the marina at (925) 371-2628*

# SCHOOL SCORES

## Understanding State School Rankings

The scores assigned range from a low of 1 to a high of 99. The scores represent percentage of how each school has scored in relationship to the other schools in California.

For Example. A school scoring an 80 has done 80% better than the other schools in California
